

Team Yoshvei Tevel

Trash Cans

The Words Yoshvei Tevel represent a community bigger than just being Jewish. These words represent the community that is human kind. While we are at the moment separated by miles of land every day we all come together. Whether it is by going to an online class or through Camp Stone like this, we are all coming together. Team Yoshvei Tevel has spent all day coming together as a team and working to win this color war. Our Motto “For in the image of God he made man” (Bereshit 9:6) embodies this idea of coming together perfectly. This quote shows us that in the eyes of God we are all the same because we are all made in his image and all of us have a place whether it is on our team, in our camp or just an ordinary human, we are all one team and we matter.

Brielle Weissman

We choose to draw Cookie Monster and big bird because our team represents learning things from others not only jewish and benefiting from that. Sesame Street teaches children values from all different looking creatures which goes along with the learning from all types of people. They teach equality in all people, and in the tanach were all called our team name *Yoshevei Tevel*.

Keira Zatman

The fairytale princesses remind us of our childhood when we thought that everyone was a friend and that everything was innocent. We need to remember this time and act upon these memories of inclusion and unity. Yoshvei Tevel is all about facing challenges as more than just the Jewish people and these fairytales represent that we all came from the same background of listening to these stories.

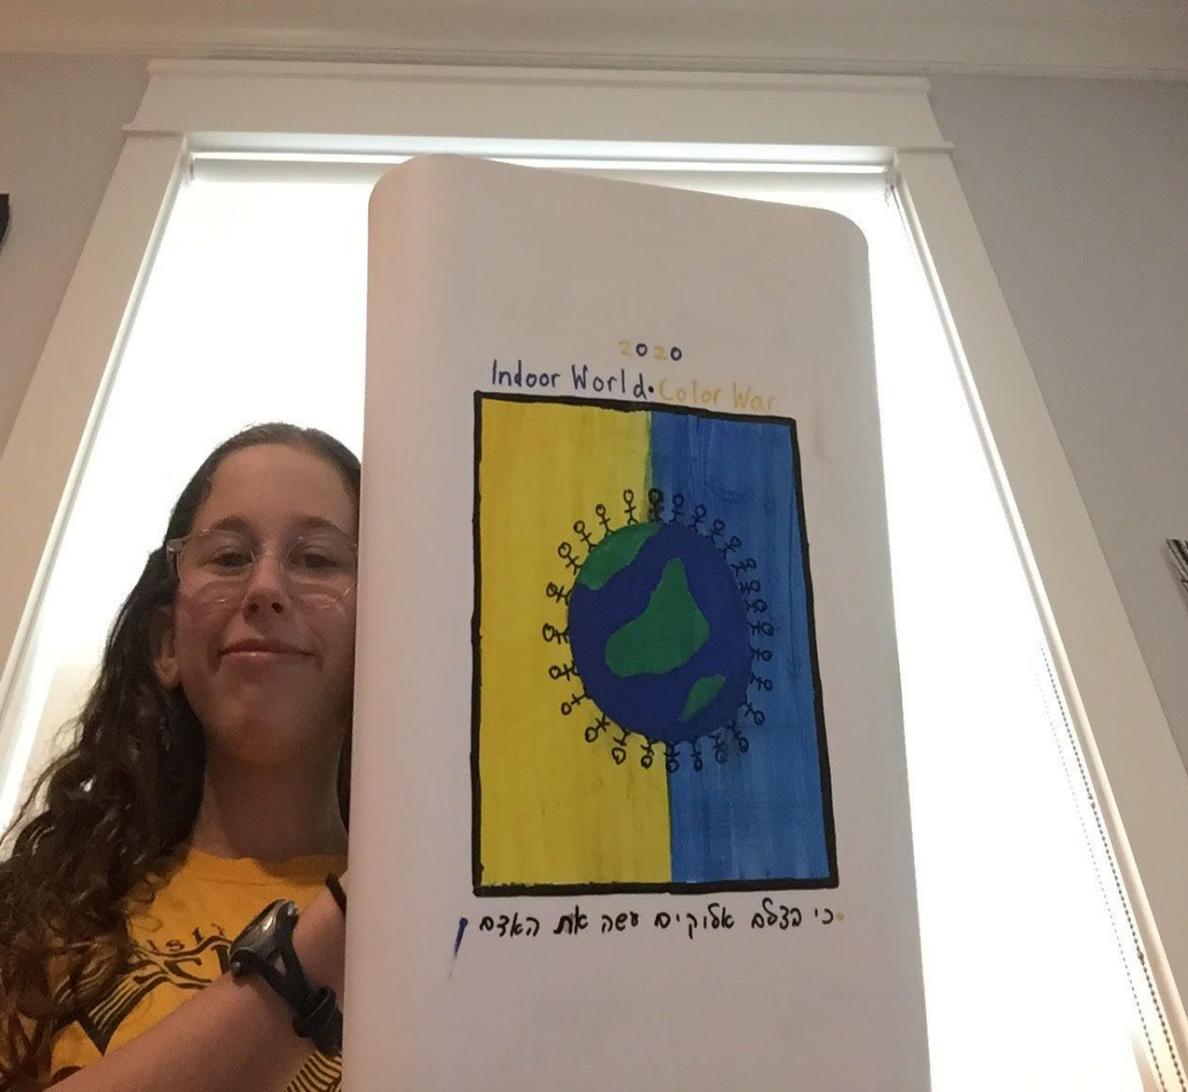

Aliza Lesser

I did it in the team colors
and even though their
separate colors they
combine and stick
together like יושבי תבל.

Ayelet Soloman

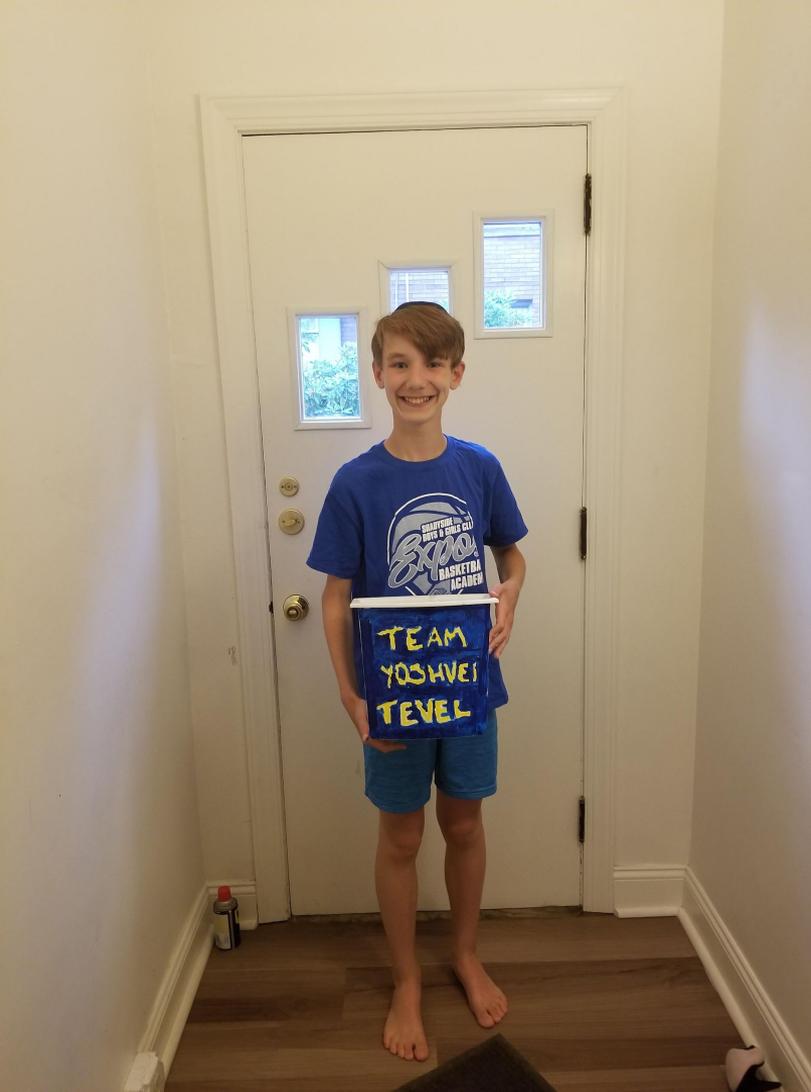

I just put the colors in the background and people holding hands around the world to show all the people together and then wrote the slogan for the team on the bottom.

Amalya Zatman

Smurfette is the only girl in a town of boys. And she was more than just a girl even though she was different she was a friend to everyone. She was the embodiment of community. She was more than just a girl just like Yoshvei Tevel is about being more than just a Jew.
