Rosh Eidah

The perfect introduction to middle management. You report directly to the Roshei Moshava and you are responsible for the hadracha within your Eidah. Baby Bach

A smaller kitchen than the Mitbach devoted to preparing specialty food items, birthday cakes, motzei shabbat melavei malka, and running peulot for campers during the day. Requires tremendous attention to detail given the risks of food allergies and dietary restrictions.

Shekem

Some have said: "Sign up for Shekem and relax the whole month." We are here to disabuse you of that notion. Giving out shekem to the entire camp is an intense experience. Heroes are born every day. And the paper goods closet - fully stocked and spotless on a daily basis. It is at times rather Kafkaesque. Buckle Up.

Stonewear Model

Stonewear has always been an important part of the Camp Stone experience. At the end of each session, campers and staff members purchase Stonewear. But it's tough to make quick decisions. We need someone to help Machane. This position will require wearing Stonewear every day. You may not wear the same Stonewear two days in a row. You must also carry around a backpack with various sizes of the Stonewear that you are modeling so that campers and staff members can touch and feel the apparel and hold it up for sizing. You must keep copious notes of all camper and staff member requests over the course of the session.

Basilisk Assassin

A rumor began last summer that Harry Potter was filmed at Camp Stone. I cannot deny that. AND I must also tell you that a giant water snake, a poisonous Basilisk (spoiler alert: carrying a Horcrux), was captured and killed in August 2021. We cannot allow any campers or staff members to be hurt. Please help us. Applications will be accepted from only those with prior assassin certification from the Red Cross of US/Canada.

Then this is the perfect job for you! Prepare the shtick leading up to the big event and control the entire camp during the chaos that ensues when everyone runs down the main migrash towards the lake. Retrieve all shoes and miscellaneous items from the lake itself. No prior experience required.

Woodshop

Train and work with our Amish professionals, Reuben and Mose, to operate the woodshop. Work with the Directors and the Roshei Village to design and execute tochnit projects. Also includes running Chug Woodshop and working with campers to create independent nagarut projects.

Rosh Rainy Day

Is it raining or is it misting? Our sages teach us that "it never rains at Camp Stone" (Shabbat 46b), and yet, we do encounter rain from time to time. It's a mystifying and troubling contradiction. Every day we struggle to determine which schedule to use - regular or rainy day? If you can sense the onset of a thunderstorm, if you can predict the weather with at least 80% accuracy, then this is the job for you!! Work with the Directors and Roshei Moshava on a daily basis to determine the direction of the daily schedule. Work in our silk screening studio to make Camp Stone t-shirts, sweatshirts and other swag! Work with campers to develop a t-shirt design, create a screen, and make a t-shirt. Added benefit: expand your wardrobe for free!

Falconer

Do you have experience hunting with trained birds of prey? Did you grow up with a pet hawk? Then this is the job for you!! We are in desperate need of a falconer, specifically to eliminate a flock of angry birds that have been pestering the campers when they are at chavalim.

Rosh Village

Upper Level Management. Requires at least 2 sessions in the Village or 2 sessions of prior Camp Stone experience. Manage a staff of 12-15 and run one of the most important educational components of Machane Stone. Also requires preparation with the Roshei Moshava and the Directors many months prior to camp :)

Tech

Are you "tech-savvy" by objective standards? Do you love WiFi? Are you a digital native? Can you handle pressure? Then this could be your first job as an IT professional. Does not require running peulot or keeping a set schedule. Requires tremendous flexibility, patience, and the ability to problem solve.
